Instructions

There are the game leader and the players.

The game leader has a smartphone with spotify and the first page where all titles and artists are present. In order to open the playlist she or he can use the QR-code on top of his paper.

Every player needs a copy of the second page and a pen.

The game leader starts to play the first song in the playlist for approx. 15 seconds. Every player has to guess and write down the song title and artist. Do not use the shuffle function.

As soon as all songs are played, the players switch their sheets. The game leader reads out the correct song titles and artists and every correct answer means one point. If only the artist or the title is correct the player gets half a point. If there is more than one artist it is enough if one artist is correct.

At the end every player gets back his own sheet with the score she or he has reached.
